PROFILE

Healthcare support professional with 6+ years of experience in high-acuity hospital and long-term care settings, including oncology, stroke, dementia, and night shift assignments. Skilled in independent vital signs, blood glucose testing, fall-risk monitoring, and rapid recognition of patient deterioration. Experienced using Epic for accurate documentation and maintaining safety with confused, weak, and medically complex patients. Currently pursuing a Master of Science in Nursing, with strong clinical judgment and commitment to high-quality patient care.

EXPERIENCE

PROFESSIONAL EXPERIENCE

Clinical Support - US Nursing
Jul 2023 - Jan 2025
Provided direct patient care on high-acuity contracts including oncology and stroke units.
Worked night shift in fast-paced hospital settings with medically complex patients.
Independently obtained vital signs and blood glucose levels and reported abnormalities promptly.
Monitored fall-risk, weak, post-stroke, and confused patients to maintain safety.
Assisted with ADLs including hygiene, toileting, mobility, and repositioning.
Documented care in Epic EMR to support continuity of care.
Maintained infection control and isolation precautions with immunocompromised patients.
Supported nursing staff during high census and short-staffed shifts.
Provided comfort care and emotional support to patients and families.

Clinical Support - PrimeTime Medical
Nov 2021 - Jul 2023
Worked in multiple facilities including dementia and memory care units requiring close supervision.
Assisted with transfers, ambulation, and fall-risk precautions.
Observed and reported changes in patient condition to nursing staff in real time.
Maintained quality care in understaffed, high-pressure environments.
Provided support to patients with confusion, agitation, or decline.

Customer Support Representative - Healthcare (Remote)
Jan 2025 - Present
Manage high-volume patient interactions involving scheduling, services, and benefits.
Handle escalated concerns using calm, professional communication.
Maintain accurate documentation across multiple systems.
Demonstrate strong multitasking and attention to detail.

PCR Processor - Nomi Health
Nov 2021 - Jul 2022
Followed strict infection control procedures in high-volume testing environment.

Benefits Advisor - TTEC
Oct 2018 - Jun 2020
Assisted patients with complex healthcare and insurance questions.
Maintained accuracy in high-volume call environment.
